

PEPPER Ancillary Science Advisory Committee Request Form Abstracts, Manuscripts, and Data Use Proposals

Please review the PEPPER Ancillary Science Advisory Committee (ASAC) guidelines and recommendations prior to completing this form.

The ASAC recognizes the importance of fully utilizing the data collected in PEPPER for maximum advantage in advancing the science of total joint replacement. As such, the ASAC, as well as the leadership of PEPPER, support and encourage pursuit of ancillary research questions that can be informed from the PEPPER database. National visibility is achieved through the continuum of abstracts presented at scientific meetings that are subsequently developed into published manuscripts. It is therefore assumed that all requests for PEPPER data will progress through this continuum of research project, to presented abstract, to published manuscript. Please consider this in preparing your project data request.

Pilot Data for Future Grant

Planned Grant Submission

Funding Agency: _____
RFA#: _____
Submission deadline: _____

Planned Abstract Submission for National Scientific Meeting

Meeting Name: _____
Submission deadline: _____
Presenter: _____
Location: _____
Date: _____

Manuscript

Journal Name: _____

1. Title and Background Information

a. **Proposal/Project Title:** *(Please include "PEPPER Trial" whenever possible)*

b. **Abbreviated Title:** *(50 characters max)*

c. **Key words:** *(up to five)*

2. Lead/Senior Author(s) / Principal Investigator

Institutional Affiliation: _____

Address: _____

Email: _____

Telephone: _____ Fax: _____

3. Team Membership, Contact Information, and Roles

Please include email address and telephone numbers as well as proposed role/responsibilities, such as study design, statistical analysis, data acquisition, methodology, funding, and literature review. Please also indicate writing assignments for manuscript. Corresponding author should be identified if distinct from lead author.

Name – Author/Co-I	Institution	Contact Info	Role/Responsibilities

4. Research Question(s):

5. Background/Rationale

Address the relevance of this proposal/project and justify need for PEPPER data to answer research question.

6. Data Needs

Please provide list of existing and/or new data elements requested, patient inclusion/exclusion criteria, and relevance to the proposal. (Refer to attached data elements dictionary from PEPPER database). New data collection is discouraged; please justify and detail all such requests. Please note other datasets with which comparison is planned.

- Secondary analysis of existing PEPPER data
- Comparative analysis

7. Methods and Brief Statistical Analysis Plan *(including power calculations as appropriate)*

8. References
